## SCH80 PITTCO SERIES

3/4" Offset Pivot for Heavy-Duty Aluminum Doors and Frames

### Application:

Designed specifically for heavy-duty applications requiring increased durability and smooth operation, suitable for aluminum storefront doors and frames frequently used in high-traffic commercial environments.

### Available Finishes:

- AL - Anodized Satin Aluminum
- DU - Anodized Bronze
- BK - Anodized Black

### Features:

- **Non-Handed Design:** Can be installed on left-hand or right-hand doors.
- **Heavy-Duty Construction:** High-strength steel pivot for maximum durability.
- **Smooth Operation:** Enhanced bearings ensure smooth, quiet pivoting action.
- **Load Capacity:** Rated for doors weighing up to 300 lbs.
- **Easy Installation:** Pre-drilled mounting holes for quick, simple installation on aluminum frames.
- **Low Maintenance Requirements:** Constructed from high-quality materials, significantly reducing long-term maintenance requirements and lowering operational costs.
- **Excellent Weather Resistance:** Specialized surface treatments ensure outstanding corrosion resistance, making it suitable for diverse and challenging environmental conditions.
- **High Safety and Reliability:** Professionally engineered design and selected materials effectively enhance overall safety and resistance to damage for door and frame systems, ensuring reliable, long-term operation.
- **Strong Adaptability:** Widely suitable for both new construction and renovation projects, compatible with various commercial storefront systems, making it easy for customers to select and replace.

### Ordering Information:

- Specify door handing (left-hand or right-hand if applicable), finish, and required accessories.

**SCH-OP80-L** (Left 1/8" Recessed Door)

**SCH-OP80-R** (Right 1/8" Recessed Door)

### Cross References:

- Compatible and interchangeable with commonly used pivot models in the market including Pitco, Jackson, Kawneer, and similar commercial storefront brands.

### Typical Applications:

- Ideal for retail entrances, shopping malls, office buildings, hospitals, schools, and other commercial facilities with frequent use.
